

Prominent Enterprise Mobile & Sales Executive Joins Dexterra

Bothell, WA – February 8, 2006 – Dexterra, Inc., a leading innovator of mobile business software, today announced that well-known European mobile enterprise executive, Nigel Clarke, has joined the ranks at Dexterra as vice president and general manager, Europe.

Over the last 16 years, Clarke has held senior positions at Palm Inc., Mitsubishi Electric, Noblestar Systems Inc, and Lattice Group PLC (an FTSE Top 50). Most recently, Clarke was director of sales, Northern Europe at Intellisync Corporation, later becoming director of channels and alliances across all of Europe, the Middle East and Africa.

“Nigel has been an active force in the European mobile enterprise market for many years,” said Rob Loughan, CEO of Dexterra. “His extensive technology expertise in telematics, location based services, and line of business enterprise applications combined with a strong history of success in entrepreneurial ventures makes him the best person to lead our thriving European operation.”

Based in London, Clarke will be leading the charge to extend the company’s reach in transportation and logistics, utilities, consumer goods, pharmaceuticals, and manufacturing markets with over 20 European-based Dexterra certified technology partners.

“I’m very excited about joining Dexterra and being part of such an entrepreneurial and fast moving company,” said Clarke. “For years there has been much talk about the promise of mobility and what it can do for business. With Dexterra, I feel that I can finally help deliver on that promise.”
